

PSEUDOCODE PRACTICE

Your program should display four different output images, numbers, or strings (text) depending on the input. Practice writing pseudocode for this program before you write it.

Input	Output (on LED screen)	What should the program do?	Pseudocode
Button A	<pre> 0 </pre>		
Button B	<pre> 0 </pre>		
A + B	<pre> 0 </pre>		
Shake CHALLENGE!	<p>Phrase:</p> <p>_____</p> <p>_____</p> <p>_____</p>
